Monte Carlo

23.05.–26.06.2019

An aerial photograph of the Monaco Grand Prix track. The track is a narrow street circuit with a large crowd of spectators lining the sides. In the foreground, a dense crowd is visible, with a staircase leading down to the track. The track curves to the right, and a large number of white yachts are docked along the waterfront. A few Formula 1 cars are visible on the track.

# Roof of the Caravelles A

The Monaco track, around the impressive Casino is one of only two temporary street circuits in the Formula One calendar. The city of Monaco gives the race a breath taking scenery. As the circuit is located in the heart of the city, the view from normal grandstands is naturally worse than on permanent race tracks.

Therefore we are proud to be able to offer one of the best locations in Monaco to enjoy the Grand Prix. From the roof you have a unique view of big parts of the circuit.

The building Caravelles is located on the boulevard Albert 1er in the last third of the start-finish straight.
